Reading

Read a review of the *Pirates of the Caribbean* films. For each question, choose the correct answer A, B or C.

The *Pirates of the Caribbean* films are my favourite films of all time. I like them because they mix action, comedy and special effects. The actors are great, too. Johnny Depp's character Captain Jack Sparrow, is perfect. He's a mixture of a pirate and a rock star. Geoffrey Rush and Orlando Bloom are also good, especially in the first film. In the first film, I liked the part when Jack had to escape from the soldiers and stole the ship because it was so funny. The first film is probably the most enjoyable, but the other three were also good. I really liked the special effects and make-up in the third and fourth films. They say the films were made for children, but I think they're incredible.
