

# COMPUTING FOR VOLUME

The formula for getting the volume of a rectangular prism is  $L \times H \times W$ . Let's practice computing for volume with the following problems:

|                      |                      |                      |                      |                      |
|----------------------|----------------------|----------------------|----------------------|----------------------|
| L                    | $\times$             | H                    | $\times$             | W                    |
| <input type="text"/> |
| Volume:              |                      |                      |                      |                      |
| <input type="text"/> |                      |                      |                      |                      |

|                      |                      |                      |                      |                      |
|----------------------|----------------------|----------------------|----------------------|----------------------|
| L                    | $\times$             | H                    | $\times$             | W                    |
| <input type="text"/> |
| Volume:              |                      |                      |                      |                      |
| <input type="text"/> |                      |                      |                      |                      |

|                      |                      |                      |                      |                      |
|----------------------|----------------------|----------------------|----------------------|----------------------|
| L                    | $\times$             | H                    | $\times$             | W                    |
| <input type="text"/> |
| Volume:              |                      |                      |                      |                      |
| <input type="text"/> |                      |                      |                      |                      |

|                      |                      |                      |                      |                      |
|----------------------|----------------------|----------------------|----------------------|----------------------|
| L                    | $\times$             | H                    | $\times$             | W                    |
| <input type="text"/> |
| Volume:              |                      |                      |                      |                      |
| <input type="text"/> |                      |                      |                      |                      |
