A. Using the wordle above, fill in the blanks of the sentences below.

1. _____ print newspaper is no longer practical compared to the digital version.
2. Compared to the _____ of printing newspaper _____, a digital membership is more affordable.
3. Digital media allows online readers to express their _____ by _____ comments online.
4. Although a _____ device is expensive, e-books are usually cheaper than paper editions.
5. Nowadays, plenty of news is available for _____ online.

B Write a headline EACH for the EACH paragraph below using the words above.

_____

Firstly, the print on a page won't give you headaches or eye strain like a screen does. Also, you have to charge a device or you can't read at all. And what happens if your device is stolen or breaks? You could easily drop it, or take it to the beach with you and get sand or sea water in it; then you will be unable to read until you have it fixed or get a new one. That's something you'll never have to worry about with a normal book.

_____

Compared to the cost of a print newspaper every day, a digital membership is more affordable. Not only that, but online readers get an interactive experience since they can express their views by posting comments on articles that are of particular interest to them. The newspaper benefits from being online too. Money that was needed for materials such as ink and paper, warehouses, delivery vans, and so on required by a daily print newspaper can be saved.
