A crossword puzzle grid with mathematical problems. The grid is composed of squares, some containing numbers, symbols, or blank spaces for answers. The problems are:

- Top row: $4 + 2 = \square$
- Second row: $\square + \square = 8$
- Third row: $\square + \square = 9$
- Fourth row: $2 + \square = \square$
- Fifth row: $\square + \square = 2$
- Sixth row: $\square + \square = 9$
- Seventh row: $\square + 1 = \square$
- Eighth row: $\square + 1 = \square$
- Ninth row: $\square + 7 = \square$
- Tenth row: $\square + \square = 1$
- Eleventh row: $\square + 1 = 2$
- Twelfth row: $\square + \square = 8$
- Thirteenth row: $\square + \square = 7$
- Fourteenth row: $\square + \square = 6$
- Fifteenth row: $\square + 7 = \square$
- Sixteenth row: $\square + \square = 8$

There are two cartoon illustrations of children. One is a girl with pigtails standing on a cross-shaped path in the middle of the grid. The other is a boy standing on a path on the right side of the grid, holding a sign.
