- a) If we freeze water, it changes into a gas. T / F
- b) Solids have a definite shape. T / F
- c) The three states of water are ice, water and water vapour. T / F
- d) Liquids do not have a definite volume. T / F

**3** Complete the sentences with the words in the box.

sound energy    kinetic energy    thermal energy  
electrical energy    light energy

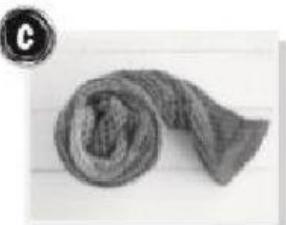

a) A smartphone uses \_\_\_\_\_.  
b) Moving things have \_\_\_\_\_.  
c) A trumpet produces \_\_\_\_\_.  
d) A torch produces \_\_\_\_\_.  
e) A radiator produces \_\_\_\_\_.

**2** Match the phrases to make sentences about the different forms of energy.

a) Anything that is hot      with electrical energy.  
b) We can make many machines work      and light energy.  
c) Anything that we can hear      has kinetic energy.  
d) Anything that moves      contains thermal energy.  
e) The sun produces thermal energy      has sound energy.

**5** Look and write C (conductor) or I (insulator).

**4** Read and circle the correct word.

- a) A substance can change state because of this type of energy.
- b) Thermal energy passes through these materials quickly.
- c) Something made up of more than one material is called this.

Thermal / Sound

Insulators / Conductors

Mixture / Substance

**4** Look and classify the mixtures in the table.

fruit salad

paella

milkshake

ice cream

ketchup

hot chocolate

curry

coffee

We can see the different substances.	We cannot see the different substances.
