

MY FUTURE 20 YEARS FROM NOW

I. Read the letter and write the correct answer.

Dear friend Oliver,

It's 2021 I'm in 6th grade at Innova schools. I'm writing this because I want to mention some future predictions I have for you. Twenty years from now, I think I will be living in Australia probably raising a beautiful family. I will have three children: two boys and one girl. I won't be working in an office because I will be running my own business. I think people in Australia will be using flying cars so I will be flying my own car. That will be incredible. Finally, I am sure I will be using robots to clean my house.

Hope everything becomes true.

Love,

Lisa

1. Where will she be living in the future?

- a) She will be living in Africa.**
- b) She will be living in a small apartment.**
- c) She will living in Australia.**

2. Will she be raising a small family?
