

Science — GRADE 8TH

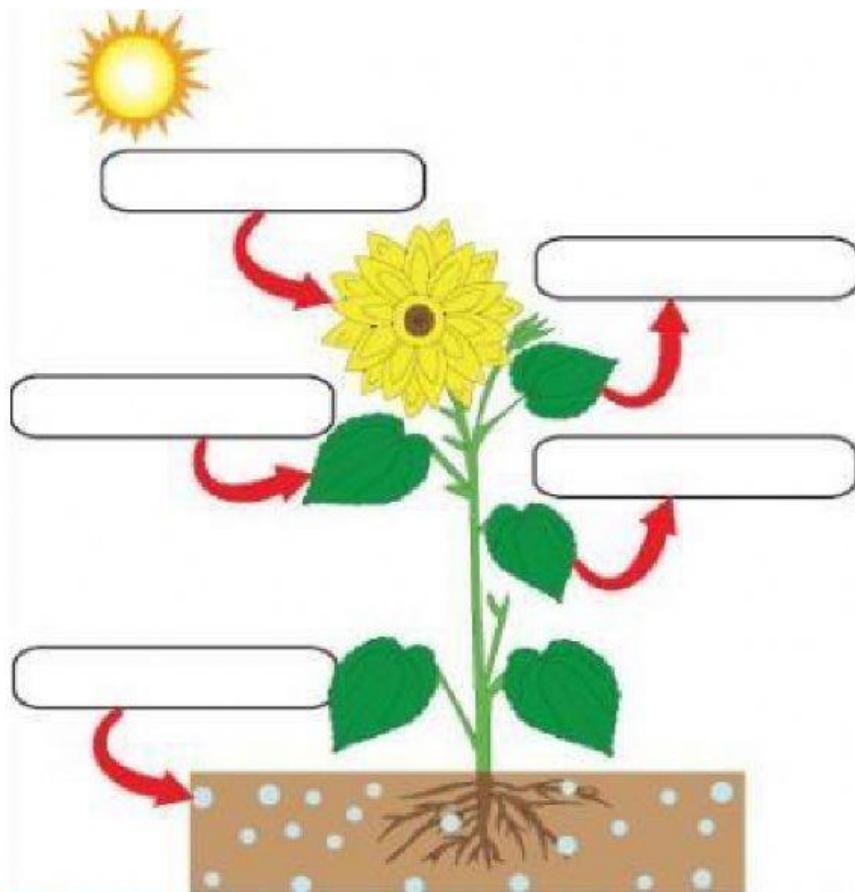

## Photosynthesis

TEACHER: JEMIMA SANTOS

 LIVE WORKSHEETS

DRAG AND drop to complete the photosynthesis process.

Carbon dioxide  
Water and minerals  
Oxygen  
Sunlight  
Sugar

Complete the PArAGRAPH to explAIN the photosynthesis process.

The process in which plants produce their own food is called \_\_\_\_\_

Photosynthesis takes place in the \_\_\_\_\_ of the plant.

During photosynthesis, the plant absorbs water through its \_\_\_\_\_, and \_\_\_\_\_

through its \_\_\_\_\_. The \_\_\_\_\_ in the leaf captures \_\_\_\_\_.

The products of photosynthesis are: \_\_\_\_\_ and \_\_\_\_\_.
