

El suelo, sus capas y tipos

Ubica cada capa del suelo en su lugar correspondiente.

The diagram illustrates the three layers of soil. At the top, a tree is shown with its roots extending into the ground. Below the tree, three horizontal rectangular boxes represent different soil layers. Each box has a green arrow pointing to a corresponding empty rectangular box on the right. The top box is light brown and represents the topsoil layer. The middle box is dark brown and represents the subsoil layer. The bottom box is yellow and orange and represents the parent material layer. Below the boxes, three labels are provided: 'Intermedia' under the top box, 'Inferior' under the middle box, and 'Superior' under the bottom box.

		
		
		
Intermedia	Inferior	Superior

Une cada tipo de suelo con su imagen.

Arenoso
