ENGLISH FOR COMMUNICATION
SPECIAL EDUCATION KSSMPK FORM 3
TOPIC: LANDLINE TELEPHONE VS SMART PHONE

Name:

Date:

Exercise 1: Choose the correct answer.

Exercise 2: Fill in the blanks with the correct answer.

fixed	the Internet	wireless network	connected

Dear Anne,

How are you? I hope you are fine. Regarding the homework that Mr. Chong gave, here are a few points about the landline telephones and smartphones.

The landline phones are (1)_____ through a wired network but smartphones don't use any wired network for connectivity. Besides, the landline phones are also (2)_____, which means they cannot be carried anywhere like smartphones.

If you have another point, please share it with me so I can prepare our group presentation for next week. Hope to hear from you soon. Goodbye.

Regards,

Zamri

Dear Zamri,

Thank you for your e-mail. I have also found a few points about landline phones and smartphones.

As we all know, smartphones are connected through the (3)_____ but landline phones are not Another good point is smartphones can be connected to (4)_____ but we can't do that with the landline phones.

I think that's all for now. Hope we can share the points with the class next week. See you soon. Goodbye.

Regards,

Anne
