

Unit 3: Wild Life

Prepared by Teacher Hana

Match the sentences with its correct translation.

A Imagine thousands and thousands of colourful butterflies in the sky. They are orange and black with enormous wings.

B These are the famous monarch butterflies and they are on a very special journey. Every year, they fly more than 4,500 kilometres from Canada and North America down to an area in the mountains of Mexico. It is the longest journey of any butterfly in the world.

C Their journey usually starts in September or October and it takes about two months. These beautiful butterflies can sometimes fly more than 100 kilometres in one day and they often fly very high too – perhaps at 1.6 kilometres in the sky.

Ini adalah kupu-kupu monarch yang terkenal dan mereka dalam pengembaraan yang istimewa. Setiap tahun, mereka terbang lebih daripada 4,500 kilometer dari Kanada dan Amerika Selatan ke Kawasan pergunungan Mexico. Ianya adalah pengembaraan yang terpanjang bagi kupu-kupu di dunia.

Pengembaraan mereka biasanya bermula pada bulan September atau Oktober dan ia mengambil masa dua bulan. Kupu-kupu yang cantik ini kadang-kadang terbang lebih daripada 100 kilometer dalam sehari dan mereka juga boleh terbang tinggi – mungkin dalam 1.6 kilometer di langit.

Bayangkan ribuan dan ribuan kupu-kupu yang berwarna warni di langit. Mereka adalah oren dan hitam dengan sayap yang besar.

D But not all the butterflies get to the mountains of Mexico. Many don't survive the long and dangerous journey because they become very cold.

E Monarchs are the most famous butterflies in North America. There are books, TV programmes and websites about them. There's an amazing 3D film too – it's called *Flight of the Butterflies*. Watch it and you can go on their long journey too.

Pengembaraan mereka biasanya bermula pada bulan September atau Oktober dan ia mengambil masa dua bulan. Kupu-kupu yang cantik ini kadang-kadang terbang lebih daripada 100 kilometer dalam sehari dan mereka juga boleh terbang tinggi – mungkin dalam 1.6 kilometer di langit.

Kupu-kupu monarch adalah kupu-kupu yang terkenal di Amerika Selatan. Ada buku-buku, rancangan TV dan laman web tentang mereka. Ada filem 3D yang hebat juga – ia dipanggil "Terbangnya kupu-kupu". Sila tonton dan kamu juga boleh mengikut pengembaraan yang panjang mereka juga.

Tetapi tidak semua kupu-kupu dapat sampai ke pergunungan Mexico. Kebanyakannya tidak selamat dalam pengembaraan yang panjang dan berbahaya itu sebab mereka menjadi sangat  **LIVEWORKSHEETS**

Amazing butterflies

A Imagine thousands and thousands of colourful butterflies in the sky. They are orange and black with enormous wings.

Monarch butterflies in the sky

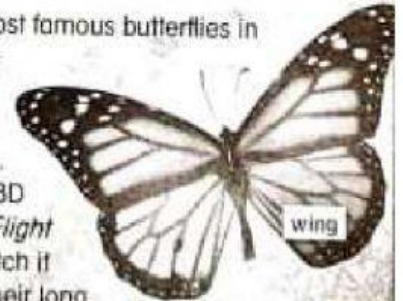

B These are the famous monarch butterflies and they are on a very special journey. Every year, they fly more than 4,500 kilometres from Canada and North America down to an area in the mountains of Mexico. It is the longest journey of any butterfly in the world.
