

- (1) The way a polygon is named, based on the number of sides it has, is given in the following table.

Number of sides	Name of polygon	Number of angles	Number of vertices
3	Triangle		
4	Quadrilateral		
5	Pentagon		
6	Hexagon		
7	Heptagon		
8	Octagon		
9	Nonagon		
10	Decagon		

Drag and set the correct name of the polygon. You can drag the suitable name from above table.
