My Plant Journal: Aster		<i>By Roger Ho</i>
Date	Journal	
March 27	Spring comes! Mr. King says it's the best time for planting. Today I took three aster plants home. Each plant is about 1.5 centimeters. So small!	
April 10	The asters are now 3 centimeters. I water them every morning and every evening. Today, Mr. King came and showed me the right way to water them.	
April 24	It kept raining last week! There was too much water and all of my asters died! I was very sad. I called Mr. King, and he said I could have three new asters. I need to take good care of them this time.	
May 8	The asters are 7 centimeters now. I started to put them outside to catch as much sun as possible. I shouldn't forget to take them inside if it starts to rain.	
May 22	So HOT today! I watered the asters three times. They are now 20 centimeters!	
June 5	<u>Buds</u> !! Six little buds! I told Mr. King about it, and he said maybe I could see the flowers in one or two weeks. The asters in his garden already have some flowers.	
June 19	Beautiful purple aster flowers!! I took many pictures of them. Grandpa and Grandma came for them. They said I'm good at gardening. Ha!
