

PT3 EXERCISE: ERROR CORRECTION

My name is Adam and I love cycling. Ever since I was young, I have cycled to school and everywhere else I have wanted to go. Cycling had (1) become a passion of mine. My friends and I joined a club and (2) that we can do group riding. We get to exercising (3) and see the beautiful Malaysian landscape. Sometimes, we do off-road cycling, which means we ride at (4) mountainous tracks. Specially-built bicycles is (5) used for this purpose. Off-road bicycles have wider wheel (6) than road bikes. Them (7) shock absorbers make riding off-road more comfortable. Cycling is an activity that can be enjoyed from (8) everyone. You should give it a try!
