Reading Activity

A. Read and complete the information:

A colour hide prey

The colour of some animals like dumpy frogs and polar bears matches the colour of the things around them. This way they can 1) **hide** from their 2) or predators. These animals use their 3) as camouflage.

polar bear dumpy frog

B pattern stripes see

Some animals, like tigers and giraffes, have got spots, 1) and other patterns. It makes it difficult for other animals to 2) them. These animals use 3) as camouflage.

giraffe tiger

C predators look like shape

Animals like katydids and pygmy seahorses 1) another object. This makes it almost impossible for their 2) to spot them. These animals use their 3) as camouflage.

katydid pygmy seahorse
