

Simon TOFIELD, the creator of Simon's cat

Simon Tofield is 37 and he lives in England. He is an animator and a Youtube personality. He is the creator of "Simon's cat" : a series of **animated cartoons** about the life of a cat. In the first episodes there is only one cat and it's in black and white, but then, new characters appear: his sister's dog, a bird, a kitten, a mouse ... and Simon Tofield adds color to his episodes.

The animated cartoons are fun because the cat always wants food, he is always **hungry**.

This cat is inspired from Simon Tofield's cats. Simon loves cats, he has 4 cats at home:

Jess is old. She is a very talkative cat. Maisy ,on the contrary doesn't **meow**.

Hugh is very greedy, every day at 8 PM he is in the kitchen and he asks for food.

Teddy is an abandoned cat, rescued by Simon Tofield.

Simon's cat is SO famous today, you can find books, t-shirts, **mugs** ...
