WRITING

A. Fill in the box with the information below.

Title: The Galapagos penguin

Paragraph 1: What is the animal?	Paragraph 2: What is the problem?	Paragraph 3: How can we help?
Where does the animal live and what does it eat?	**How** rare is the animal?	**Where** can we find information about it?
	Why it is in danger?	**How** can we help to protect it?

Information:

- It's one of the smallest species of penguin in the world. Females are usually smaller than males.
- The Galapagos penguin lives on Fernandina Island and the west coast of Isabela Island.
- It eats mostly small fish such as mullet and sardines.
- The Galapagos penguin is in danger and it's very rare.
- It is in danger because of human activities like pollution, bycatch and climate change.
- You can find information on the website of the Galapagos Penguin Conservation.
- The website explains how we can help to protect it. For example, providing artificial nests.
