

How to show that you are still eating your food and how to show that you are finished with the dish

I tell my mom that I need to go to the [red box] and she helps me [red box] my knife and fork [red box] on the plate.

I ask why she [red box] the knife and fork that way.

She says it tells the [red box] not to [red box] the food.

I ask how to show servers that the dish is finished and can be taken away.

She placed the [red box] and the [red box] to each other on the dish to show that I am finished with the dish. It is so easy.

leave placed servers knife restroom

crossed take away fork parallel
