

Water Cycle Video.

There is no audio, so be sure to watch carefully as the sun comes up and heats the land and water, and then goes through the whole water cycle. Be sure to label the arrows on your water cycle diagram as you watch. Use the word bank for help.

Word Bank:

Evaporation

Condensation

Precipitation

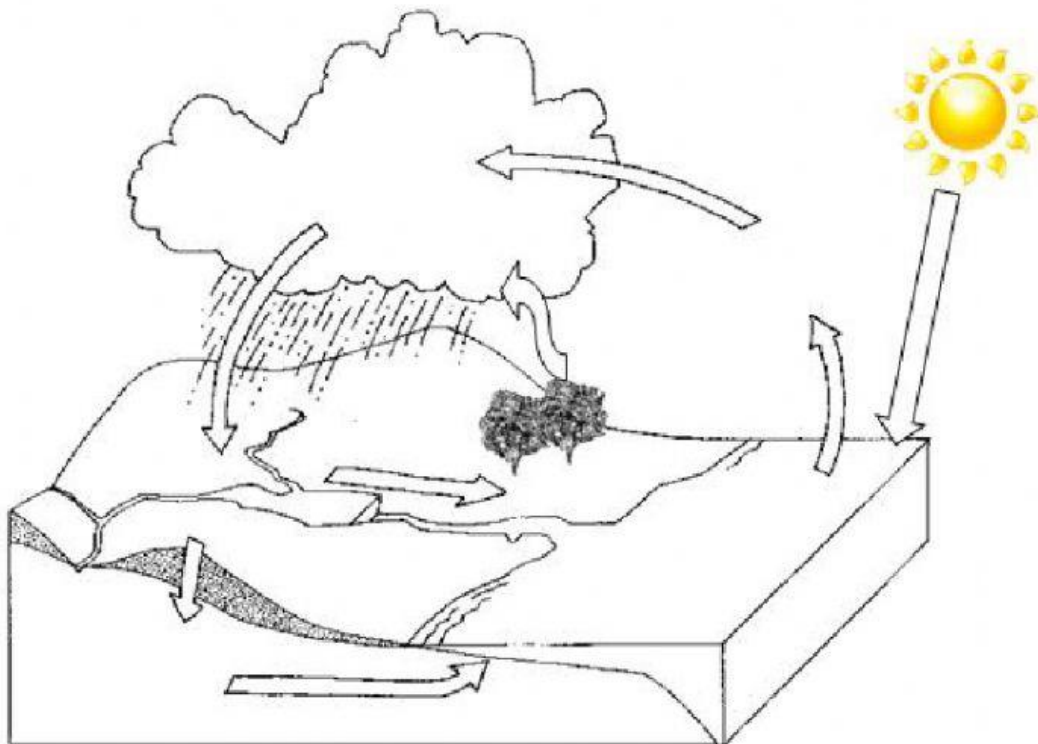

Run off

Infiltration

Groundwater flow

Solar Radiation

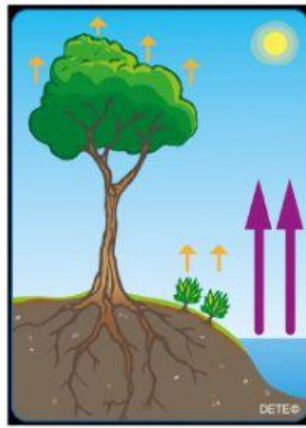

Transpiration

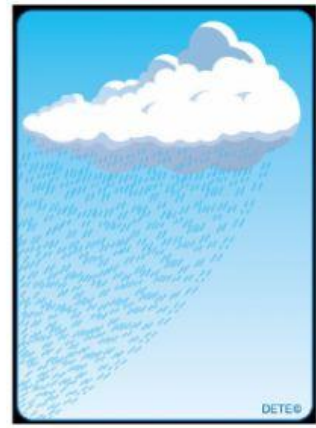

Drag the correct water cycle phase to match the images below.
