ESLWORKSHEETS

Tag Questions

Directions: Write the correct form of the auxiliary in the same tense as the principle verb for each question and add the correct subject pronoun after the auxiliary to make a "tag" question that you think you already know the answer to. Make sure you put the opposite of the first verb in the question, meaning if the principle verb is positive, then you put a negative auxiliary. If the principle verb is negative, then you put the positive auxiliary verb.

Examples: *Positive question*= He is at home, isn't he? *Negative question*= He isn't at home, is he?
