The map plans for two possible sites for a shopping centre in the city of Brandfield.

It can be seen that the two sites (S1, S2) under consideration are in (S1) and of the town (S2). Additionally, S1 is a residential area, while S2 is just an industrial zone.

The first possible site for the shopping mall, S1, is just the city centre, above the railway line, running from of the city to . If it is built here, it will be a large residential area, providing easy access for those living there and in the city centre. It will also be the river, which runs through the town.

While, The site in the (S2) is again the railway line and to the city centre, it is near an industrial estate rather than housing. As for the main road that runs through the city, it is both sites, thus providing good road access to either location. Finally, a large golf course and park in the town prevents this area from being available as a site.
