SCIENCE YEAR 5

ADAPTATION OF PLANTS ON CLIMATES AND SEASONS

PLANTS	CHARACTERISTICS OF ADAPTATION	REASON
	Long roots	
	Water storing stem	
	Folding of leaves	
	Shedding of leaves	
	Pinnate leaves	

	Needle-shaped leaves	
--	----------------------	--

To reduce water loss

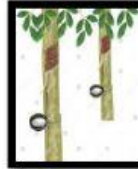

To absorb water better

can reduce wind resistance
and prevent from toppling
down during strong wind

to enables them continue living
even drought seasons
and extreme heat

to reduce water loss

To avoid excessive loss of water
