MY DANCE CLASS

Last Sunday, I attended a traditional Malay dance class (0) at the first time. I never had any formal dance lessons before, so I felt quite nervous. When I (1) arrive at the dance studio, there were already some girls (2) waits. They were also beginners like me. It was a small class of only ten students. The dance instructor, Puan Azah said that (3) her wanted to guide everyone personally and it would be difficult to do if there were too many in the class. She also stressed that a good dancer should be able to perform (4) graceful. The first dance we were going to learn, the 'inang' dance was originally (5) the court dance before becoming a folk dance, enjoyed and performed by all individuals. She said the dance steps were not difficult to master and the slow music would enable new learners to move in rhythm easily. Then, she demonstrated each (6) steps of the dance for us to follow. After that, she played the music so we could learn how to practise the various dance steps. At the end of the class, we really had a great time and enjoyed (7) ours very much. Now, I am already looking forward to learn the 'Joget', (8) whom is a fast-paced dance with a catchy beat.

FAMOUS SINGER: MELISSA TAN

Melissa Tan had always enjoyed singing. She started taking part in talent competitions since she was ten years old. When she was 16 years old she took part in a television talent competition. Melissa won the first prize of RM50, 000 and a recording contract with Melody Music Company. Melissa however decided to sign up with Rock Records as they offered her the freedom to write her own music.

Her first album, 'My Beautiful Dream' did very well in the music charts. It became number one within a month of launching. A year later, Melissa launched her second album. It was called 'A Lucky Break'. It sold 250 000 units worldwide, making it 50 000 more than the first album.

Melissa still cannot believe how successful she has become. She says, "being a celebrity is not all glamorous. Sometimes even when you feel tired you still have to perform."

Melissa follows a routine before any performance. "I want to give a wonderful performance for my fans, so I take a few minutes to meditate by myself in my dressing room. It really helps me to focus". She does not believe in strange practices like wearing lucky rings or banging drums.

A month ago, Melissa did a concert in the Philippines with a popular local singer. She is currently preparing for her next show in Indonesia. Later this year she will be acting in the movie 'We are family'. Critics believe it will be a bigger hit than her previous movie 'My Man'.

Saving Money

When Tina was five years old, her mother got her a coin box. The coin box had a lock and key. Every time she got any money from her relatives or her parents' friends, she would put away the money in her coin box.

Tina would sometimes use the money she had saved to buy birthday gifts for her family members. Another time she used the money to help her less fortunate friend to buy a school bag as her parents could not afford to buy her a new one. Tina's friend was very grateful to her. After a few years, Tina's coin box finally got full.

"Let's open a savings account," Tina's mother told her.

Tina felt very excited. She still however kept her coin box. Once the coin box became full again, she would deposit the money in the savings account.

After Tina finished her PT3 exam, she decided to work temporarily at her uncle's café. Apart from getting a salary, she would also get tips from some of the customers. She did not spend all the money she had earned. Tina put the remainder of the money in her savings account. Although Tina did not work once she started Form 4, she still put away any extra money from her allowance and gifts to her savings account.

Soon Tina sat for her SPM examination. While waiting for her results she worked at a hotel as a chambermaid. She puts away some of her earnings in her savings account. Tina did very well in her examinations and was accepted to a prestigious university overseas.

Since she did not want to burden her family, she used her savings to cover her expenses. She also worked during the college holidays. After graduating, Tina got a job which needed her to have a car.
