4° ELIZABETH

Mínimo común múltiplo

m.c.m (15 y 25)

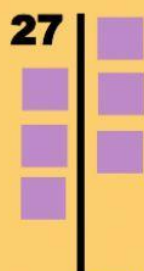

$$= \square \cdot \square$$

$$= \square$$

$$15 = \square \cdot \square$$

$$25 = \square \cdot \square$$

$$= \square$$

m.c.m (27 y 21)

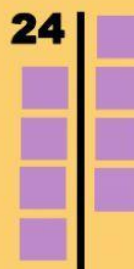

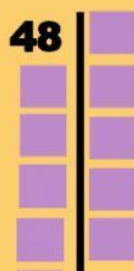

$$= \square \cdot \square$$

$$= \square$$

$$27 = \square \cdot \square \cdot \square$$

$$21 = \square \cdot \square$$

$$= \square$$

m.c.m (48 y 24)

$$= \square \cdot \square$$

$$= \square$$

$$48 = \square \cdot \square \cdot \square \cdot \square \cdot \square$$

$$24 = \square \cdot \square \cdot \square \cdot \square$$

$$= \square$$
