

THE FOUR SEASONS

Click here to study the topic:

Video

Lesson

1) Match each set of clothes to the corresponding season of the year.

2) Select the correct season for each description.

- It is the coldest season of all, its days are shorter, and its nights longer, with lower temperatures, which vary depending on the distance we are from the Equator. _____
- In this season, the days gradually shorten, temperatures drop and more winds and rains appear, the soils are filled with a wide range of colors, predominantly green, yellow, red and brown. The floor is covered with a Carpet of leaves that gradually fall from the trees.

- At this time the days are longer and the nights shorter. This is the hottest time of the year, with the highest temperatures. At this time of year, we wear lighter and fresher clothes, we go to the pool or the beach and we also enjoy the glorious holidays. _____
- It is a season full of life, light and color. The young of the animals appear, the trees are dressed in leaves and the butterflies exhibit their color. _____

3) Listen to the audios and select the appropriate season.
