

# What time is it?

Nat Marquet

Excuse me.

What time is it?

It's **1:00**  
one o'clock

It's **1:45**  
-a- quarter to two  
(one forty five)

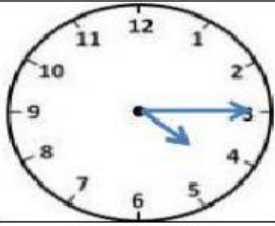

It's **9:20**  
twenty past nine  
(nine twenty)

It's **2:53**  
seven minutes to three  
(two fifty three)

 Choose the right answer to tell the time:

|                                                                                           |                                                                                                    |                                                                                                      |                                                                                              |
