

Task 1. On a piece of paper write the sentence ***I look forward to hearing from you.*** Then sign your name underneath and give the piece of paper to your partner.

Task 2. Read an extract from a book about graphology. Do you believe that our signature might say something about our personality?

What your *signature* says about you

Your signature is the part of your handwriting that says the most about your personality. It is quite common for your signature to change during your life because it reflects how you develop and evolve as a person. You may have more than one signature, for example a more formal signature (name and surname) when you sign a credit card or your passport, and an informal signature (just your first name) when you sign a birthday card.

Our signature is very much part of the way in which we present ourselves to the world, so it can give some important clues about the kind of person we are and how we feel about ourselves.

Task 3. Listen to an expert in graphology talking about how to interpret somebody's personality from their signature. Complete the notes on the right.
