

La División

Realice las siguientes divisiones luego de observar el ejemplo.

Ejemplo: $25 \div 5 = 5$ porque $5 \times 5 = 25$

$$18 \div 2 = \boxed{} \text{ porque } \boxed{} \times \boxed{} = \boxed{}$$

$$27 \div 3 = \boxed{} \text{ porque } \boxed{} \times \boxed{} = \boxed{}$$

$$30 \div 5 = \boxed{} \text{ porque } \boxed{} \times \boxed{} = \boxed{}$$

$$18 \div 3 = \boxed{} \text{ porque } \boxed{} \times \boxed{} = \boxed{}$$

$$12 \div 3 = \boxed{} \text{ porque } \boxed{} \times \boxed{} = \boxed{}$$

$14 \div 2 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$

$24 \div 3 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$

$35 \div 5 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$

$9 \div 3 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$

$15 \div 3 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$

$40 \div 5 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$

$21 \div 7 = \boxed{}$ porque $\boxed{} \times \boxed{} = \boxed{}$
