It was fun to shop there. There are many things for **children**. I spent one **thousand** dollars on toys. I even saw and shook hands with my favorite **pocket monster**. What's more, all the **clerks** were nice to me. I will ask my mom to take me there again.

It's so **convenient**! The department store is only two blocks from the metro station. It's easy to get there on foot.

I went to the department store last Sunday, and that was a big **mistake**. There weren't enough parking spaces for visitors. It took me 25 minutes to drive there, but I had to wait one hour for a parking space.

The toys and clothes there are **cheap**, but the food is **expensive**. I **paid** three hundred and eighty dollars for a bowl of **beef** noodles. It is a great place for shopping, but not for eating.
