

P5/ Nickname:

N#:

Do these division and simplify!

a.  $\frac{18}{49} \div \frac{9}{28} = \text{---} \times \text{---} = \frac{3 \times \quad \times 2 \times 2 \times 2 \times}{\times \quad \times 3 \times} = \text{---}$

b.  $\frac{6}{14} \div \frac{9}{42} = \text{---} \times \text{---} = \text{---}$

c.  $\frac{12}{7} \div 8 = \text{---} \times \text{---} = \text{---}$

d.  $\frac{72}{28} \div 9 = \text{---} \times \text{---} = \text{---}$

e.  $\frac{70}{28} \div \frac{15}{4} = \text{---} \times \text{---} = \text{---}$

f.  $\frac{250}{600} \div \frac{120}{450} = \text{---} \times \text{---} = \text{---}$
