## 2. Complete the newspaper first newspaper article about the murders. Write ONE word in each blank. You have the initials to help you

### EXTRAORDINARY MURDERS

This morning at about three o'clock, a number of terrible screams awoke the inhabitants<sup>1</sup> of the Quartier St. Roch. The screams were coming from the fourth f\_\_\_\_ of a house in the Rue Morgue. Only t\_\_\_\_ people lived there: Madame<sup>2</sup> L'Espanaye and her d\_\_\_\_ Mademoiselle<sup>3</sup> Camille L'Espanaye. After several attempts, neighbours finally entered the house together with two policemen. By this time there were no more screams. But as the group ran up the stairs, they heard two more angry v\_\_\_\_ coming from the upper part of the house. However, when they got to the fourth floor there was again silence. They divided up into small groups, moving from room to room. They finally arrived at a back room. The scene they discovered there was almost too horrible to describe.

The apartment was in great disorder. The furniture was broken and the bed lay in the middle of the floor. On a chair was a razor covered in b\_\_\_\_. Bloody lengths of human hair lay in the fireplace. On the floor there were three large s\_\_\_\_ spoons, an ear-ring and two bags containing four t\_\_\_\_ francs in gold. The

drawers of a desk which stood in one corner were open and papers were scattered about.<sup>1</sup>

Under the bed was an open safe with the key still in the door. It contained a few letters and other papers but nothing of any importance.

There was no sign of Madame L'Espanaye. But somebody noticed there was an extraordinary quantity of soot<sup>2</sup> in the fireplace. And so they searched the ch\_\_\_\_. There they found the dead body of the daughter. The body was quite warm. A doctor examined it and found many bruises<sup>3</sup> and cuts. On the throat there were several dark bruises and f\_\_\_\_ marks. This suggested only one thing. Strangulation.<sup>4</sup>

They searched the rest of the house but found nothing. Finally they went into the small g\_\_\_\_ at the back of the house. There they found the body of the old lady. Her throat was completely cut and when two men tried to raise her, the head fell off. The body itself was completely mutilated.<sup>5</sup> It didn't look human.

No one has yet found a clue that could help to solve this mystery.

**3. Read and choose the correct option**

**a. What did the narrator and Auguste Dupin have in common?**

- a. They were childhood friends
- b. They loved reading and preferred nighttime
- c. They loved detective stories

**b. How did they find out about the murders in the rue Morgue?**
