

BLOOD VESSELS

Choose the right option:

1. These blood vessels have thick muscular walls and they carry the ~~deoxygenated~~ blood from the heart.
2. The largest artery.
3. The artery that carries blood to all the different parts of the body.
4. The blood vessels with thin muscular walls that take ~~deoxygenated~~ blood from other parts of the body to the heart.
5. These connect the arteries and the veins.
6. The blood vessels where gases, nutrients and wastes are exchanged.
7. The large surface area of the capillaries makes exchange of materials more efficient.
