Hi Luke,

What are you up to? I've just played a new video game with my brother. It's called 'Rollerblade heroes 3' and it's an adventure game. Have you played it? It's a game for two players and you have to skate around a city to collect special coins. It was great fun, but I found it very difficult because you have to be very fast. We played it three times and I lost every time. I was really annoyed because my brother was really good! Anyway, I'm going to practise more so I can win. Next time, you could play with us if you want.

Hope you're enjoying your weekend!

Bye for now,

Natalie

Using adjectives

We use adjectives to describe our feelings. In a sentence, adjectives can go before a noun or after the verbs *be* and *look*. In emails, we sometimes use emoticons to show what we feel or felt about something.

I'm having a nice weekend.

I was really embarrassed!
