Attach the correct answers

Navigation keys

Function keys

Control keys

Character keys

Numeric keypad

Choose the correct type of key

These keys are used to type in letters, numbers, punctuation marks and symbols when preparing a document.

These keys are used alone or in combination with other keys to perform certain actions. The most frequently used control keys are Ctrl, Alt and Esc.

These keys are used for moving around on a webpage and for editing text. They include the arrow keys, Home, End, Page Up, Page Down, Delete and Insert keys.

The function keys are used to perform a specific task. The functionality of these keys may differ from programme to programme.

The numeric keypad is used to enter numbers quickly.

Type this words

(Using Caps lock and shift key)

.....
