TYPES OF PLANTS

Fill in the gaps

Evergreen trees 	Deciduous trees 	Wild plants 	Cultivated plants 
Tree 	Flower 	Grass 	Bush 
			
			

Write true (T) or false (F)

- Roots absorb water and minerals from the soil
- Plants need water, air, sunlight and soil
- The stem grows under the ground
- Leaves are usually green
- Fruits transport water and minerals
- Evergreen trees lose their leaves in autumn

WHICH PART OF THE PLANT DO WE EAT?

Write roots, stem, leaves, flower or fruit

A central photograph of a variety of fresh vegetables is surrounded by ten empty rectangular boxes. Red arrows point from each box to a specific vegetable in the image. The boxes are arranged as follows: three at the top, one in the middle-right, one at the bottom-left, one at the bottom-center, one at the bottom-right, and three at the bottom-most. The vegetables include carrots, broccoli, cauliflower, eggplant, tomatoes, bell peppers, and radishes.
