Write their names in the picture

TYPES OF PLANTS

Fill in the gaps

Evergreen trees 	Deciduous trees 	Wild plants 	Cultivated plants 
Tree 	Flower 	Grass 	Bush 
			
			

Write true (T) or false (F)

- Roots absorb water and minerals from the soil
- Plants need water, air, sunlight and soil
- The stem grows under the ground
- Leaves are usually green
- Fruits transport water and minerals
- Evergreen trees lose their leaves in autumn
