Geographical features

1  Look at the article.

Then listen and repeat the words in **blue**.

WHAT ARE THE SEVEN NATURAL WONDERS OF THE WORLD?

Our readers chose these places!

1) Mount Everest, border of China and Nepal

You can make a trek to the base of this high **mountain**. Only experienced climbers can reach the top. It's 8,848 m high!

2) Victoria Falls, Africa

These impressive **waterfalls** are about 2 km wide and 100 m high. They are on the border of Zimbabwe and Zambia. In the dry season, you can walk across the top of the falls.

3) The Grand Canyon, USA

This amazing **canyon** is in the middle of a dry **desert** and it is nearly 2 km deep. You can go rafting down the Colorado **River** at the bottom of the **valley**.

4) The Amazon Rainforest, Brazil

This large **rainforest** is full of plants and animals. About 10% of the world's species live in this **forest**. You can travel by canoe down the Amazon River.

5) The Dead Sea, Jordan

The Dead **Sea** isn't a sea. It's a very big **lake**. Its water is salty and you can float on it! Its **beach** is very unusual. It doesn't have any white sand – it has a lot of brown mud.

6) The Blue Cave, Greece

On the Greek **island** of Kastelorizo, there is an interesting **cave**. Its water is a beautiful deep blue and you can visit it by boat.

7) The Great Barrier Reef, Australia

You can go snorkelling or diving in this huge coral **reef** in the Pacific **Ocean**. It has over 1,500 different kinds of fish. Some of them are very colourful.

Argentinian Geographical Features

Mention 10 different geographical features you can find in Argentina, for example:

Mountain: **Mount (Mt.) Aconcagua**.

2 Complete the table with the words in **blue** from Exercise 1.

Land	Water
mountain	waterfalls

3 Find these adjectives in the text. What do they describe?

high
salty
impressive
amazing
dry
large
unusual
interesting
huge
colourful
