#### Sentence structure:

Look at the following sentence and identify the subject, verb and object:

**Alia watches television for three hours a day.**

**subject** = Alia **verb** = watches **object** = television

**The subject** is the person or thing the sentence is '*about*'. Often (but not always) it will be the first part of the sentence. The subject will usually be a noun or noun phrase (a noun and the words, such as adjectives, that modify it).

**Verbs** can describe the action (something the subject does) or state (something that is true about the subject). For example:

**Action:** Alia plays computer games.

**State:** She is a student.

**The object** is the person or thing affected by the action described in the verb.

Notice that all sentences begin with a **CAPITAL LETTER** and end with a **full stop**. Questions end with a question mark (?).

**Q:** The words in the following sentences are in the wrong order. Write them in the correct order. Remember to start the sentence with a capital letter and finish with a full stop.

## **Key words and phrases**

1. Three ways of saying that something is good.

**In English we often say that something is 'not bad' to mean that something is okay or good!**

For example:      Friend: What's your new timetable like, Alia?  
Alia: Not bad.

Friend: Hi Mona, how are you?  
Mona: Not bad thanks. And you?  
Friend: Fine thanks.

**We use 'that's good' to show that we like something:**

Alia: My classes don't start until 7.45 this term.

Friend: That's good.

**And we use 'that's great' when we are very happy about something!**

Friend: What time's your class?

Alia: 10.40

Friend: That's great – we're in the same class!

2. Another way of asking 'Who is your Business Studies teacher?

'We can ask 'Who do you have for Business Studies?'

3. A way to show surprise at what someone says.

*k. alaidarous*

When we are surprised at what someone says we can say 'Really?'

Our voice rises: 'Really?' 

The rising and falling in our voices is called 'intonation'. Intonation helps us make the meaning of our sentences clear. It also helps us sound more 'English'.

Spending an ..... studying everyday is better than spending three or four hours twice a week.

It is important to find a ..... place to work.

Keep your handouts and ..... neatly in a folder.

### **Grammar:**

look at the following sentences taken from the listening:

*Find a quiet place to study.*

*Don't study with the television on..*

*Finish the self study activities before the tutorial.*

Look at the verb form in the sentences above. When we give instructions or advice we use the **imperative**. To form the **imperative**, we use the infinitive form of the verb without to. To make a negative imperative, we put 'do not' or 'don't' in front of the verb, for example ,

'Don't study with the television on.'

### **Reading:**

#### **Organizing your work**

When you are a student or when you have a job, it is important to organize your work. You will save time and energy because you can find your work quickly and easily. It is also important to keep records of your work. This is useful for checking information and for revising information. You can also show your teacher or your boss: "I finished the work".

#### **Here are some strategies for this course. What do you think about them?**

**1. New vocabulary** When you learn new words, write them in your notebook. Keep pages at the back of your book for new vocabulary. Organise the words and put them into groups.

*k. alaidarous*

For example, one page for “job” words; one page for verbs; one page for words we use in emails.

**2. New grammar** When you learn new grammar and finish an exercise, sometimes print the page or copy/save an electronic page. This can be good for revision later.

**3. Writing** Keep all your writing in one place at the front of your notebook. Write your first draft on one page. Then correct it and write your final draft after it.

**4. Folder** Buy a folder and keep your printed documents and class papers in it. Group your papers: reading; speaking; listening; grammar etc. Put the date at the top of each paper.

**5. Electronic documents** Make a new folder on your computer. Put your Word documents into it. Save the documents with a name that is easy to find. Group your documents: writing; grammar etc.

**Finally, ask yourself these questions:**

Which of these strategies do you already do?-

Which suggestions will you try to use in the future?-

What other ideas do you have for organizing your work?
