

Tema 1

2. Los números naturales:
Unidades, decenas y centenas:
descomposición.

Te lo cuento:

Centena

Decena

Unidad

Míralo:

Ahora tú:

1. Escribe estos números:

Descompón los siguientes números:

Te lo cuento:

- $234 = 2$ centenas 3 decenas 4 unidades.

Míralo y prueba:

$$130 = \underline{\quad} \text{ centenas} + \underline{\quad} \text{ decenas} + \underline{\quad} \text{ unidades}$$

$$576 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

$$809 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

$$987 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

$$303 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

$$580 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

$$112 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

$$324 = \underline{\quad} C + \underline{\quad} D + \underline{\quad} U$$

Ahora tú:

$$849 = \underline{\hspace{2cm}}$$

$$947 = \underline{\hspace{2cm}}$$

$$105 = \underline{\hspace{2cm}}$$

$$749 = \underline{\hspace{2cm}}$$
