

## ¡Ya puedo hacerlo!

1. Selecciona el resultado correcto de las sumas y las restas.

|                                                                                                                                                   |                                                                                                                             |                                                                                                                                                   |                                                                                                                             |
|---------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| $\begin{array}{r} \overset{\boxed{1}}{\overset{\boxed{1}}{269}} \\ + 161 \\ \hline \boxed{430} \\ \boxed{342} \end{array}$                        | $\begin{array}{r} \overset{\boxed{1}}{\overset{\boxed{1}}{178}} \\ + 299 \\ \hline \boxed{400} \\ \boxed{477} \end{array}$  | $\begin{array}{r} \overset{\boxed{1}}{192} \\ + 687 \\ \hline \boxed{879} \\ \boxed{179} \end{array}$                                             | $\begin{array}{r} \overset{\boxed{1}}{\overset{\boxed{1}}{477}} \\ + 235 \\ \hline \boxed{100} \\ \boxed{712} \end{array}$  |
| $\begin{array}{r} \overset{\boxed{2}}{\overset{\boxed{15}}{\overset{\boxed{10}}{360}}} \\ - 192 \\ \hline \boxed{168} \\ \boxed{342} \end{array}$ | $\begin{array}{r} \overset{\boxed{3}}{\overset{\boxed{11}}{418}} \\ - 273 \\ \hline \boxed{145} \\ \boxed{222} \end{array}$ | $\begin{array}{r} \overset{\boxed{7}}{\overset{\boxed{17}}{\overset{\boxed{10}}{880}}} \\ - 495 \\ \hline \boxed{430} \\ \boxed{385} \end{array}$ | $\begin{array}{r} \overset{\boxed{5}}{\overset{\boxed{13}}{963}} \\ - 358 \\ \hline \boxed{566} \\ \boxed{605} \end{array}$ |

2.-Arrastra y suelta cada número con su nombre.

|     |  |                             |
|-----|--|-----------------------------|
| 385 |  | SEISCIENTOS                 |
| 421 |  | QUINIENTOS SESENTA Y DOS    |
| 800 |  | CUATROCIENTOS VEINTIUNO     |
| 562 |  | TRESCIENTOS OCHENTA Y CINCO |
| 125 |  | CIENTO VEINTICINCO          |
| 600 |  | NOVECIENTOS NOVENTA Y NUEVE |
| 922 |  | OCHOCIENTOS                 |
| 999 |  | NOVECIENTOS VEINTIDOS       |

3.-Calculamos y comprobamos las sumas aplicando la propiedad conmutativa

|                   |                         |  |
|-------------------|-------------------------|--|
| $2 + 1 = \square$ | $1 + \square = \square$ |  |
|-------------------|-------------------------|--|

|                         |                         |  |
|-------------------------|-------------------------|--|
| $\square + 2 = \square$ | $2 + \square = \square$ |  |
|-------------------------|-------------------------|--|

|                               |                               |  |
|-------------------------------|-------------------------------|--|
| $\square + \square = \square$ | $\square + \square = \square$ |  |
|-------------------------------|-------------------------------|--|

4.- Une con líneas el resultado que corresponde.

$2 \times 5 = 10$

$4 \times 6 = 24$

$5 \times 5 = 25$

$5 \times 3 = 15$

$4 \times 3 = 12$
