Name _____ Class _____ Number _____ Basic science 3 (sc21101)

Chapter 3 Solution

THE COMPOSITION OF THE SOLUTION

Solvent and solute are in the same state

- The solvent is the material present in the larger amount in the solution.
- The solute is the material present in the smaller amount in the solution.

Solvent and solute are in different state.

- The solvent has the same state as the solution.

Solution	State	Component	Solvent	Solute
1. Rubbing alcohol				
2. Brass				
3. Stainless steel				
4. Air				
5. Saline				
6. Cooking gas				
7. Vinegar				
8. Syrup				
9. 1 Bath coin				
10. Soda
