

# THE METAL AGES

The metal ages finished when the first \_\_\_\_\_ language appeared.

The order of appearance of the metals: c\_\_\_\_\_, b\_\_\_\_\_ and i\_\_\_\_\_.

I\_\_\_\_\_ was very important because it was easier to find it in nature.

T\_\_\_\_\_, decorations and weapons were made of m\_\_\_\_\_.

The \_\_\_\_\_ began by means of bartering. That is to say: I give you this, and you give me that.

V\_\_\_\_\_ grew and became c\_\_\_\_\_.

New means of transport: \_\_\_\_\_.

They started making questions about l\_\_\_\_\_ and d\_\_\_\_\_.

There were some big constructions: m\_\_\_\_\_, m\_\_\_\_\_,  
d\_\_\_\_\_.
