

Solving a problem

A problem of solving a problem
is not a problem, but when a
problem solves a problem
without any problem, then the
problem is not at all a problem.

What positive or negative things do you see there?

There are no plants and in the
other place ...
The first place looks dry and
dangerous, but the other

Read the description and identify the positive and negative impacts in the environment.

Ana: What are you reading?

Lon: This is an article about Global Warming and how things are changing in the world.

Ana: People don't care about it. They use plastic bags for their groceries. There are recycling bins and they don't use them.

Class

Lon: I think there is more pollution than before.

Ana: Yes, there is. We should use less nuclear energy and more natural resources to produce it.

Lon: We need wind farms and more organic food.

Ana: I think it's time to change some habits.

COUNT AND NONCOUNT NOUNS
