

ZBRAJANJE 7 + 5 (1)

1. Izračunaj zbroj.

$$\begin{aligned} 8 + 6 &= 8 + 2 + 4 \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 6 + 5 &= \underline{\quad} + \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 7 + 5 &= \underline{\quad} + \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

2. Zbroji.

$$\begin{aligned} 6 + 9 &= 6 + 4 + 5 \\ &= \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 5 + 7 &= 5 + 5 + 2 \\ &= \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 7 + 7 &= 7 + 3 + 4 \\ &= \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

3. Zbroji koristeći se brojevnom crtom.

$9 + 3 = \boxed{\quad}$

$8 + 4 = \boxed{\quad}$

$6 + 8 = \boxed{\quad}$

$5 + 9 = \boxed{\quad}$

$6 + 8 = \boxed{\quad}$

$9 + 7 = \boxed{\quad}$

$4 + 8 = \boxed{\quad}$

$6 + 5 = \boxed{\quad}$

4. Izračunaj koristeći se brojevnom crtom iz trećeg zadatka.

$\boxed{\quad} = 9 + 4$

$\boxed{\quad} = 4 + 7$

$\boxed{\quad} = 8 + 8$

$\boxed{\quad} = 2 + 9$
