never buy packaged

never throw

always take my

save

usually fix or donate

often take a

always sort the garbage

I live in

I am 36-year-old. in Moyobamba. Every morning Iquick shower, in this way Iwater. When I go to the market, I bags with me. I go shopping for food but I food. As for my clothing, I away my old clothes; I my old shirts and pants. Finally, Iinto plastic, paper and organic. I say: "I do my best to help the environment every day."

Put in order this text using these phrases.

new plastic bags

always buys bottled

usually throws away her old clothes and buys

lot of garbage at home and she throws plastic

goes shopping

takes a long shower

never recycles

feel I need to change most of my

However, my sister Clarita has a different routine, Clarita is not really aware of what actions help the environment or not. For examples. She in the morning. When she for food, she always comes home with a lot of from the supermarket. She and packaged food. She generates a , paper and organic garbage in one bag only. When we ask Clarita about her clothing, she says she or reuses anything. She new clothes. Clarita says: "Honestly, I habits.
