☐ Pre-Assessment ☑ Individual guided practice

☐ Independent/fluency practice ☐ Formative assessment

Why Do Shadows Change During the Day?/What Makes Day and Night?

Day and Night are caused by the movement of the Earth around the Sun.
The Picture below shows the Earth moving around the Sun.

For each position, write 'D' on the Side of the Earth that is experiencing day. Write N on the side of the Earth that is experiencing night

Self reflection

How did you do the worksheet? (write A/B/C)

A. I did it by myself

B. I did it with a little help

C. I did it with a lot of help
