Water is an essential natural resource for all living things. Human beings needs clean water for daily use. Have you ever wondered where the water that we get at home come from? Well, we get water from rivers, lakes and ponds. The water is then sent to treatment plants to removes unwanted substances. After treatment, clean water is send to our homes. Today, many country face the problem of providing clean and safe water supply. This is because water is polluted with some kinds of toxic substances. There are factories dump chemical wastes into the rivers. There are also traces of pesticides by fertilisers due to agricultural activities. Furthermore, human wastes are found by rivers due to lack of proper sanitation. As a result, many people suffers from water borne-diseases. To prevent water pollution, everyone must does their part to make sure that water, the basic need of all living things, is safe.	e.g. **need** (a) _____ (b) _____ (c) _____ (d) _____ (e) _____ (f) _____ (g) _____ (h) _____ (i) _____ (j) _____

In a school, the library is an important place for students. So, they must knew the rules to be followed when they are in the library. Before students enter the library, them must leave their school bags on the shelves outside. Students cannot bring some food or drink into the library. Also, students can put all books, magazines and newspapers back to their respective shelves after reading them. It is the students responsibility to take care of the books they lend. In many libraries, students can borrow at less two books at a time. They can keep the books for about two week. Students who return the books late will be fined a certain amount of money of each book. The most important rule to following in the library is to be quiet. This is because there are many students which want to study in a quiet place. So, students should always be considerate when they are in the library.	e.g. **know** (a) _____ (b) _____ (c) _____ (d) _____ (e) _____ (f) _____ (g) _____ (h) _____ (i) _____ (j) _____

Dancing has a lot of positive physical, mental but social health benefits. It provides a great cardiovascular workout this can be done anywhere without the hassle for going to a gym or using any equipment. The workout you get from dancing can vary depending on the type of movements be performed. Participants of a hour long ballet lesson would have stretched various muscle groups and executing moves with precision and balance. On the other hand, when you does social dancing, it often results in an increased heart rate for a longer period. Researchers too has discovered that dancing helped older adults to protect them brains from aging. This is because dancing involve a lot of memory and a lot of learning. Dancing too offers the escape ours brain needs. The rhythmic movement has been shown to trigger the release of endorphins, which can boost our mood.	e.g. **and** (a) _____ (b) _____ (c) _____ (d) _____ (e) _____ (f) _____ (g) _____ (h) _____ (i) _____ (j) _____
