

Read the text and circle the correct answers.

I have a friend. His name Alex. He likes cycling. Every evening, he goes cycling around the park with his brother.

Last week, his father gave him a new bike for his birthday. They bought the bike at a bike shop. Alex loves his new bike. It is black in colour and has yellow bolts across the body. Alex takes good care of his bike. He washes it every week so it looks clean and shiny.
