Short Paragraph on My Pet Cat

I have named my little pet cat as Lilly. She came home when she was a kitten. I still remember, she could not even open her eyes. We fed her milk and took good care of her.

When she started to grow, we trained her for her toiletry habits and on playing with us. Now, she is a very intelligent cat and understands very fast what we tell her.

She plays with us and her favourite place would be on het mat, near the fire place in our home. She loves to be in a warm and cozy place. We have tied a small bell around her neck and so that we know where she would be. She also loves the bell.

Choose three processes of living things you can find in the text above and based on the sentences in the table.

Life process	Sentences in the text
	We fed her milk and took good care of her.
	When she started to grow
	She plays with us and her favourite place would be on het mat
