

Let's help Ranger Dave finish these tasks:

Choose the correct number sentence for the word problems.

$14 - 3 = 11$

$5 + 7 = 12$

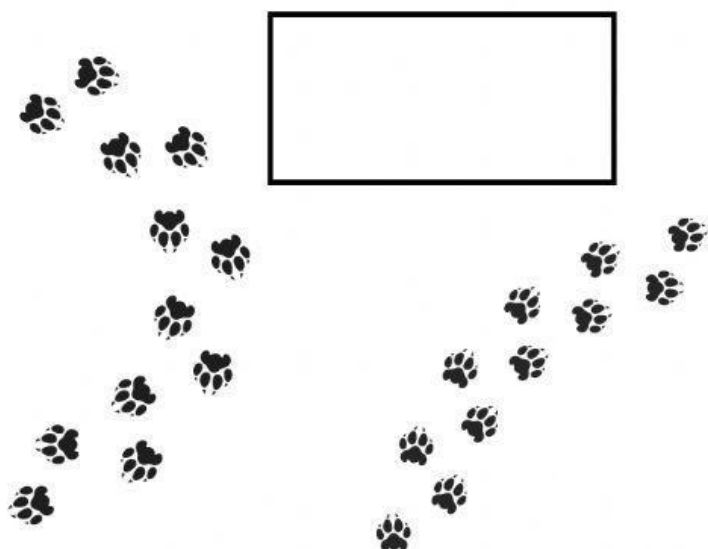

$12 - 6 = 6$

$5 + 12 = 17$

There were 14 crocodiles on the river bank. 3 crocodiles went into the river. How many crocodiles are left on the river bank?

Sally the snake was 5 cm long last year. Then she grew 12 cm. How long is she now?

Ranger Dave follows 5 sets of lion paw prints heading towards the watering hole. He sees another 7 sets heading the other way. How many sets of paw prints can he see?

There are 12 thorn trees on the game farm. The giraffes eat the leaves off of half on them. How many trees are left with leaves?
