

I'm gonna say 'texting'  
because people

Face-to-face talking  
because I enjoy  
I'd say 'face-to-face'  
talking because you

I prefer texting  
because in certain  
situations

I prefer texting  
because I'm shy and  
I'd rather be face-to-  
face with someone  
because

I like both but I mainly  
prefer

Probably texting  
because

- a) Don't have to see my face
- b) Get nervous
- c) I hate people
- d) Human interaction
- e) Get to see people's reaction
- f) Texting because of social anxiety
- g) It's a lot less embarrassing
- h) I'm really sarcastic over text
